

## MVC PY24 Engagement Points: Frequently Asked Questions

Member Question	MVC Response
When does my site begin earning points for participating in MVC events?	PY24 engagement points will be awarded for activities completed in calendar year 2024 (January – December).
Does the site coordinator have to participate in all activities in order to receive points?	No, MVC welcomes a wide range of site representatives at our engagement activities. Site coordinators or other site representatives can attend to receive points.
How will points be tracked for attendance-based activities?	For attendance-based activities, MVC will use Qualtrics and post-event surveys to confirm points. Representatives must select the appropriate site for points to be awarded. <i>Ex: Trinity Health Ann Arbor not Trinity Health</i>
I'm a site coordinator for multiple sites. Can I earn points on behalf of multiple sites?	No, each participating hospital will need to have a representative attend or participate in MVC's activities to be awarded engagement points; a centralized representative can not achieve points for multiple hospitals.
Why can't a representative for two hospitals receive credit for attending an event?	MVC's program is hospital site specific so a representative from each participating site needs to participate in order to receive engagement points.
How will I know how many points my site has earned throughout the year?	MVC will provide quarterly updates to site coordinators on their engagement points earned. Additionally, documentation (i.e., confirmations of survey completion) will be sent to site coordinators and added to your site's Dropbox folder.
Are bonus points available?	For PY24-25, there are no longer bonus points available.
Has there been discussion around BCBSM adding FTE like the other CQIs?	There are currently no plans to add FTE support for MVC since we do not clinically abstract data.
Are we able to revisit the 2 conditions selected in 2022 for 2024 and 2025 and make changes?	No, episode metric and value metric selections for PY24-25 cannot be revisited.
Is there a list with all the meeting/events dates and times?	MVC's 2024 engagement calendar can be found on MVC's website ( <a href="#">link</a> ). Networking events will be added in early 2024.
This new process creates a burden for smaller hospitals who does not have a large "team" to spare to attend these meetings	The MVC Coordinating Center understands sites may have resource constraints that impact engagement in MVC events. We would be happy to connect with sites who are interested in discussing selection options to achieve 2.0 points.
Can we submit and present a poster at each MVC collaborative meeting or are we limited to only presenting at one meeting?	Yes, a site can submit a poster for each collaborative wide meeting; however, it cannot be the same poster for both meetings.
Does MVC have a poster template?	Yes, MVC has a poster template that sites can use, however, it is not mandatory.
Is it possible that presenting at a collaborative wide meeting could count as 1.0 point?	At this time, we do not have an engagement point offering for presenting at a collaborative wide meeting, but we appreciate the feedback and will take it into consideration for future offerings.

<p>Can you clarify the point breakdown for workgroups? What is the maximum number of points I can achieve for attending MVC workgroups?</p>	<p>A site can earn up to 0.75 points for participation in MVC workgroups as follows:</p> <ul style="list-style-type: none"><li>• Participate in all four workgroup sessions for two selected workgroup series (ie. Cardiac Rehabilitation, Preoperative testing, Follow-up (CHD, COPD, PNA), Sepsis) for a maximum of 0.5 points.</li><li>• Participate in four individual workgroups from one or both the Health in Action or Rural Health workgroup series for a maximum of 0.25 points.</li></ul>
